

# Joseph McGee

Software Engineer

## SUMMARY

Creative, detail-oriented, software engineer with a deep interest in learning. Looking to bring my skills to a tech company with global reach.

## WORK EXPERIENCE

### Software Engineer at 100Devs, Los Angeles, CA

October 2020 — November 2021

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

#### Recent Projects:

**Project-Shelf (Fullstack Web App)** – Consulted and collaborated with a remote team to help build a modern and responsive website that allows developers to share their projects using React, Typescript, Docker, and NextJs.

**Book Store (Fullstack Web App)** – Worked with a team remotely around the world to create a responsive app to help students find university books at a cheaper price. Using Passport to authenticate requests, and MongoDB for the database.

**Other Projects:** Todolist, NASA Space API Integration APP, Cocktail API APP

### Public and Private School Teaching Assistant | Gwangju, South Korea

February 2012 — Present

- Planned and conducted English language lessons for elementary grades 1 to 6 with classes averaging 20 students.
- Used technology such as Powerpoint to help students learn English
- Assisted new teachers transition to their roles as English teachers.

## VOLUNTEERING

### Reading Club | Gwangju, South Korea

August 2012 — May 2013

- Helped educate kids learn how to read using interactive educational programs
- Planning and leading activities to develop student's reading skills
